

**SMITHVILLE SEWAGE PUMPING STATION
CAPACITY UPGRADE AND FORCE MAIN REPLACEMENT
IN THE TOWNSHIP OF WEST LINCOLN AND
TOWN OF GRIMSBY**

PROJECT 2013-T-126 (RN 13-26)

**Project
Description**

Construction Operations in Progress (April to November)

Niagara Region is undertaking upgrades to the Smithville Sewage Pumping Station. This includes replacement of 10 kms. of sewage forcemain in West Lincoln and Grimsby. Motorists and the general public are hereby advised that construction activity is currently in progress, and will be continuous until November 2015, at the following locations:

- Regional Road 20 (St. Catharines Street), between Dufferin Avenue and Industrial Park Road;
- Industrial Park Road, between Regional Road 20 and Young Street;
- Young Street, between Industrial Park Road and South Grimsby Road 6;
- South Grimsby Road 6, between Young Street and Mud Street; and
- Park Road South, between Mud Street and Regional Road 81 (Main Street East)

Lane restrictions, lane closures, and road closures resulting in travel delays are expected and ongoing.

Project Status

A road closure will be in place until the end of June on South Grimsby Road 6 from Young Street to Mud Street. A road closure will also commence in June on Young Street, from Industrial Park Road to Thirty Road, and is expected to last the month. As the work on Young Street and South Grimsby Road 6 is completed, road closures and/or lane restrictions are anticipated along Industrial Park Road in West Lincoln, and Park Road South in Grimsby.

Alternate routes around the construction zone are posted and should be taken. Your co-operation and patience during this period of inconvenience will be appreciated.

Periodic updates will be made available through Niagara Region's website (www.niagararegion.ca), the Township of West Lincoln's website (www.westlincoln.ca), and the Town of Grimsby's website (www.grimsby.ca).
