SMITHVILLE SEWAGE PUMPING STATION UPGRADE AND FORCEMAIN REPLACEMENT IN WEST LINCOLN AND GRIMSBY

Construction Operations in Progress (April to November)

Niagara Region is undertaking upgrades to the Smithville Sewage Pumping Station. This includes replacement of 10 kilometers of sewage forcemain in West Lincoln and Grimsby. Motorists and the general public are hereby advised that construction activity is currently in progress, and will be continuous until November 2015, at the following locations:

- Regional Road 20 (St. Catharines Street), between Dufferin Avenue and Industrial Park Road;
- Industrial Park Road, between Regional Road 20 and Young Street;
- Young Street, between Industrial Park Road and South Grimsby Road 6;
- South Grimsby Road 6, between Young Street and Mud Street; and
- Park Road South, between Mud Street and Regional Road 81 (Main Street E)

Lane restrictions, lane closures, and road closures resulting in travel delays are expected and ongoing.

A road closure will be in place throughout the month of May on Young Street between Regional Road 14 (Thirty Road) and South Grimsby Road 6. Portions of South Grimsby Road 6 will be closed during June and July, once work on Young Street has completed.

Alternate routes around the construction zone are posted and should be taken. Your co-operation and patience during this period of inconvenience will be appreciated.

Periodic updates will be made available through Niagara Region's website (www.niagararegion.ca), the Township of West Lincoln's website (www.westlincoln.ca), and the Town of Grimsby's website (www.grimsby.ca).

Any inquiries concerning this project may be directed to Niagara Region Dispatch at 905-684-3690 or Gino Giancola, B.Sc., CET, PMP®, Project Manager Water & Wastewater Engineering, at 905-685-4225 ext 3735.

Ron Tripp, P. Eng.

Commissioner of Public Works
