
**THE TOWNSHIP OF WEST LINCOLN
MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT
NOTICE OF PUBLIC INFORMATION CENTRE
NORTH CHIPPAWA ROAD BRIDGE**

The Study

The Township of West Lincoln has initiated a Municipal Class Environmental Assessment (Class EA) study to identify and evaluate alternative solutions for the North Chippawa Road Bridge, located approximately 0.6 km east of Regional Road 2. Bridge #34 is a single span reinforced concrete structure with a gravel wearing surface. This bridge currently supports two lanes of rural traffic and provides access to both rural residential and agricultural lands.

As part of the Township's 2011 OSIM bridge inspections, this bridge was identified for a full deck, beam and barrier replacement. Due to the age and poor structural condition of the existing bridge, the Township of West Lincoln has recognized the need for a Class Environmental Assessment to determine whether or not the bridge can be rehabilitated, replaced or should be removed from service. This study is being conducted as a **Schedule B** project under the **Municipal Class Environmental Assessment** (October 2000, amended 2007) which is approved under the Ontario Environmental Assessment Act.

Public Information Centre

A Public Information Centre has been planned to provide members of the public with the opportunity to review and provide comments into the planning and / or design of this project. The Public Information Centre will be held:

Date: Thursday, July 31st, 2014
Time: 6 – 8 p.m.
Location: West Lincoln Council Chambers
318 Canborough Street
Smithville, ON

For further information

Please contact either one of our project team members if you have any questions or comments:
